

New Delhi
November 2-3, 2017

The importance to participate

- Discover the ultimate technologies for water and soil decontamination
- Share and discuss your knowledge and main results within an International valuable context
- Meet the principal actors in the water/soil policy, research centres and private companies to expand your network
- Explore new funding opportunities supporting your activity

Highlights

- The Delegation of European Union and India (DST/DBT) presenting the Horizon 2020 joint EU-India Call on Water
- Focus on the transfer of knowledge, expertise and technology from Europe to replicate in Indian Market
- Welcome statements of the Ambassador of the European Union to India, Tomasz Kozlowski, DST and DBT, Government of India
- The TECO Project results so far and perspectives
- Focus on the Indian market involved in environmental issues

Technological ECO-innovations for the quality control and the decontamination of polluted waters and soils

TECO Mobility grants

TECO is dedicated to the implementation of EU-India exchange of experts and innovators in the field of technological eco-innovations applied to the improvement of the quality of polluted waters and soils.

TECO aims at giving new opportunities of sharing experiences and starting up collaborations between EU and India by stimulating research centres, private industries and public institutions to implement thematic networks and activate people exchange programmes.

Mobility is financially supported by providing monthly grants.

Activities are mainly focused to the development of new ideas in the field of technologies applied to the improvement of water and soil quality.

EU Delegation to India and Bhutan

This year the EU and India celebrate 55 anniversary of establishment of diplomatic relations in 1962.

The 1994 EU-India Cooperation Agreement, the legal framework for EU-India relations, aims at boosting political, economic and sectorial cooperation. On research and innovation, EU and India have concluded a Science and Technology Cooperation Agreement in 2001, renewed in 2016 until 2020. It was agreed to step up cooperation on research and consider also the innovation dimension.

A commitment was also made to organise a joint call on Water. India is eligible to participate in the EU's Research and Innovation Research and Innovation Programme 'Horizon 2020' (2014-2020) in which there are many upcoming calls of mutual interest to EU and India.

TECO Project is co-funded by
the European Union, 2014/2018

TECO Project Joint Workshop 2017

PROGRAM OVERVIEW

2nd November – TECO Joint Workshop

- 9:00 am – Registration
- 9:30 am – Opening
- 11:30 am – TECO: Results so far
- 2:00 pm – TECO: Private Companies Network
- 4:00 pm – TECO: EU-India Joint Initiatives
- 5:00 pm – Summing up & Perspectives

3rd November – EU-India call on Water

- 9:30 am – Opening
- 9:45 am – Presentation of Call Text on Water
- 10:15 am – Terms & Conditions for Participation
- 11:30 am – State-of-the-art: Drinking Water
- 2:00 pm – State-of-the-art: Wastewater Treatment
- 3:15 pm – State-of-the-art: Monitoring and Control Systems
- 4:30 pm – Questions & Answers, Matchmaking
- 5:15 pm – Closing Session

Participation is free of charge

Coordinator
Consiglio Nazionale delle Ricerche (CNR)
Project manager: Dr. Massimo Zacchini

Partner
National Environmental Engineering Research Institute (NEERI)
Project officer: Dr. Paras R. Pujari
